## **ACUTE AND SKILLED NURSING CARE**

JEFFERSON COUNTY HOSPITAL

## ***Jefferson County Hospital Skilled Nursing (Swing Bed)***

The Skilled Nursing Program at Jefferson County Hospital uses an interdisciplinary team. Each patient is provided an individualized, comprehensive program of care that encourages high levels of independence and activity while promoting personal dignity and quality of life.

### **Program Services Include:**

- Post Surgical Care
- IV Infusion Therapy
- Chronic Wound Care Management
- Physical Therapy

### **Medically Complex Patients**

At Jefferson County Hospital, we are able to care for patients with multiple medical diagnoses. These patients may require comprehensive nursing care and therapies including: PT, ST, OT, wound care, medication management and nutrition with daily physician oversight.

Physician directed treatment plans for patients requiring rehabilitation needs such as basic mobility and strength endurance to prepare them for independent living.

### ***Programs at a Glance***

#### **Physical Therapy**

Physical Therapy in a skilled nursing facility promotes, maintains and restores the physical functions of our patients. When a patient is admitted, an evaluation is performed and a plan of care is established to improve their endurance, mobility, balance and strength.

#### **Chronic Wound Care**

Healing chronic wounds is our specialty. Our skilled physicians and Certified Wound Nurse, Rachel Blundell, use the latest advances in technology to promote healing and alleviation of the pain associated with the wound. We also offer Wound Vacs and Ostomy Care. Our goal is to increase the patient's quality of life.

### **Why Choose Jefferson County Hospital Skilled Nursing Program?**

Quality skilled nursing and rehab care with the confidence of a hospital setting is right here in southwest Oklahoma. Our patient-focused treatments are designed to ensure the highest quality of care and recovery available.
